Self Definition

I'm an adaptable and motivated individual who thrives in collaborative and dynamic environments. Passionate about IT, I enjoy learning new technologies and solving problems creatively. With strong communication skills, I work well both in teams and independently. I take responsibility seriously and focus on delivering quality results. Being part of the ever-evolving tech industry excites me, as it offers endless opportunities for growth and innovation.

Strength

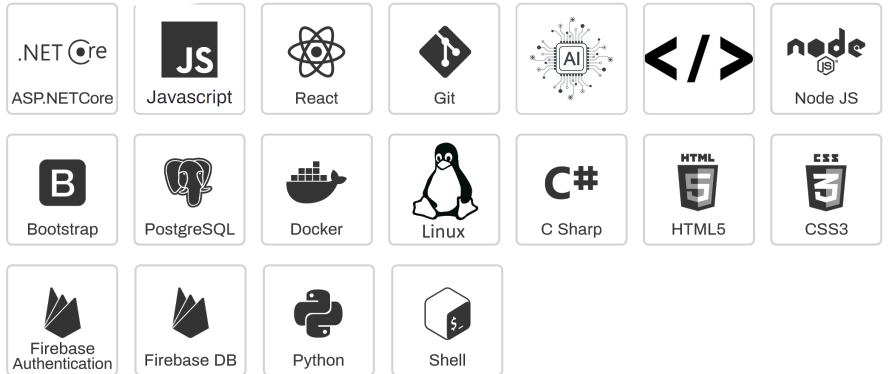

Proficient in front-end and back-end development with expertise in React, ASP.NET, SQL, and NoSQL databases. Skilled in Git, debugging, and writing clean, maintainable code following best practices. Experienced in agile environments, collaborating with teams to deliver high-quality software. Quick to learn and adapt to new technologies to stay current with industry trends. Strong time management skills, ensuring deadlines are met across multiple projects.

Mentor Opinion

"Bence is one of the most driven and motivated students I've had the pleasure of working with, always pushing himself beyond the baseline. He never slacks off, consistently works ahead of schedule, and finishes tasks early while maintaining high quality. Confident in his skills, he knows his strengths and eagerly works on his weaknesses. Instead of avoiding challenges, he actively seeks them out to improve. With his work ethic and mindset, I have no doubt he'll thrive as a junior developer."

— *Róbert Kohányi, mentor*
